

# “Favorite Story Mini Album”

Designed by Jess Mutty

Created with the Maya Road October 2016 Write On Mini Album Kit

### \*\*\*Notes before you begin\*\*\*

- I used almost all of the included 8x8 paper pad to create this album. I began by pulling all of the papers out of the pad and SAVED the back yellow cover of the pad.
- Remove two of the chipboard pages from the album. We will use one on the front cover and use the other cut up as pieces to elevate design elements.
- I inked all papers and embellishments as I went along. This is optional but adds a nice touch.
- Punch binder holes as you go and be aware of embellishment placement to not interfere with them.

### Supply List:

Maya Road Write On Kit  
foam tape or pop dots  
your favorite adhesives
